

Measure yourself

This size guide shows body measurements. We suggest ordering a size up when your measurements are between sizes.

For all horizontal measurements, please keep the tape measure parallel to the ground.

A Chest

Put one end of the tape measure on the fullest part of your chest and bring the tape around your back (under the armpits, over the shoulder blades) to where you started.

B Waist

Place the tape on the narrowest part of your waist and measure around.

C Hips

Put the beginning of the tape measure on one hip and bring the tape across the fullest part of your hips back to where you started measuring.

Product measurements

This size guide shows product measurements taken when products are laid flat. Actual product measurements may vary by up to 1" because they're custom-made by hand.

A 1/2 waist width

B Inseam length

C front rise
